Capacity Building for
Lifelong Learning Programme

This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein

AIMS

CB4LLP aims at incorporating Lifelong Learning Programme (LLP) projects and results into European local and institutional development strategies, and points to the design and the development of methodologies and practical tools to facilitate the exploitation of these projects' results by policy makers and other stakeholders at various levels in setting up policies, strategies and actions.

CB4LLP intends to create and to promote new Capacity Building methodologies, to implement practical tools for sectoral, regional, national and European stakeholders, to overcome barriers, to boost cooperation and synergies among different players by sharing methodologies, tools and good practices with a wide audience – primarily with decision makers, public administrators and educational providers – with the objective to contribute to the integration of LLP results and tools within capacity building processes.

ACTIVITIES

CB4LLP creates methodologies and practical tools that directly support the dissemination and effective exploitation of LLP projects' results, improve sectoral, regional, national and European level Capacity Building, and promote the exploitation of cross-cutting and EU-level actions.

CB4LLP activities point at

Human Resources Development

CB4LLP creates tools and methodologies necessary to equip Capacity Builders with the understanding, skills and access to the information, knowledge and training, and enables them to incorporate effectively LLP projects' results into their Capacity Building activities and strategies.

Organisational Development

CB4LLP facilitates organisations in the incorporation of LLP projects' results into the management of structures, processes and procedures, not only within the organisation but also for the management of relationships between organisations and sectors (public, private, community).

Institutional and Legal Framework Development

CB4LLP enables organisations, institutions and agencies at all levels and in all sectors to enhance their capacities in including LLP projects and results in the legal and regulatory changes.

COOPERATION OPPORTUNITIES

International Community of Capacity Builders is sustained by CB4LLP Ambassadors. Activities are carried out in Thematic Commissions and during Capacity Building Fairs. Piloting Activities and International Workshops aim to promote the state-of-the-art tools and resources, and Dissemination and Exploitation Campaigns across Europe highlight the benefits and opportunities of the integration of LLL tools and resources into capacity building processes.
